

THE LUXURY VOYAGE

Komodo National Park

Situated east of Bali and Lombok, Komodo National Park is a UNESCO World Heritage Site and the renowned home of the iconic Komodo dragon. It is also one of Indonesia's most coveted cruising destinations.

To the east of Bali, the islands of Lombok, Sumbawa, Moyo, and Flores offer a rich array of on-land experiences. The legendary Komodo dragons of Komodo National Park, steeped in local mythology, are believed to be descendants of a dragon princess from centuries past.

In the north, rolling hills and dense mangroves give way to rugged mountains in the park's central region. To the south, Horseshoe Bay evokes images of Jurassic Park with its towering cliffs often cloaked in mist and the powerful waves of the Pacific crashing against the shoreline.

The warm, tropical waters of Komodo National Park are among the most biodiverse on the planet, home to over 1,000 species of fish and 260 types of coral. What makes this underwater wonderland even more enticing is that approximately 60% of its dive sites are also perfect for snorkeling, thanks to the shallow reefs. For surfers, the nearby islands of Lombok, Sumbawa, Sumba, and Rote offer world-class waves.
